Smart Contract Audit

June 19, 2022

Website: <https://spacbusd.in>

Contract:

<https://bscscan.com/address/Oxd4e08e9c9c3640b676597adb3644ef3d9d212567>

Critical Issues	Critical, High Severity	0
High Issues	High, Medium Severity	1
Errors, Warnings	Medium, Low Severity	0
Optimization	Low Severity	0
Recommendations	Very Low Severity	0

High Issues:

The system used is called ROI and must be considered High-Risk. Users principal deposits cannot be withdrawn, users can get dividends and referral commission. Dividends are paid from deposits of other users. Do always invest with proper knowledge.

Conclusion:

The SPACBUSD Smart-Contract found no vulnerabilities, no backdoors and no scam scripts.

The code was tested with compatible compilers and simulated manually reviewed for all commonly known and specific vulnerabilities.

So, SPACBUSD Smart-Contract is safe for use in the BSC Main Network.

Independent description of the smart contract functionality:

The SPACBUSD smart contract provides a standard bep20 token and users can stake token and BUSD

All libraries were used for calculation and the token in the contract are standard and safe

Token information: (all information based on audit date)

- ❖ Total Supply: 990000 SPACBUSD
- ❖ Limited Supply: 1000000 SPACBUSD
- ❖ Holders: 2 addresses
- ❖ Total Transactions: 2
- ❖ Name: SPACBUSD
- ❖ Symbol: SPACBUSD
- ❖ Decimals: 18

Contract Owner Fee:

- ❖ On Stake BUSD 12% of BUDS
- ❖ Owner tokens are 60,000 SPACBUSD(6% of total tokens)
 - ✓ The owner will receive 10,000 SPACBUSD tokens at the initial of the contract.
 - ✓ The owner will be able to claim 50,000 tokens after the launch of the project.
 - Each 5 days owner can claim 10,000 tokens.

Staking System:

Users can stake BUSD and SPACBUSD tokens and earn daily profit.

- ✓ BUSD daily profit is 2%
 - Users will receive equal to 2% of their BUSD staked amount in SPACBUSD token without any relation to token price. For example if the user stake 100 BUSD, he will earn 2 SPACBUSD tokens daily.
 - Users can not unstake their tokens for 7 days

Sell Tokens:

Users can sell tokens directly to the contract.

- Participants/Users cannot sell more than 40,000 tokens collectively per day
 - A total accumulation off 40,000 tokens by all investors can only be sold in a single day.
- Token Price: $\text{total available tokens} / \text{total BUSD in contract balance}$
 - Available tokens = limited supply - total supply
 - Mint increases the total supply
 - Sell decreases total supply (Burn)

Airdrop

100,000 SPACBUSD tokens will be airdropped between users with specific rules:

- ✓ The total airdrop amount is 100,000 tokens
- ✓ Each time users can get 100 tokens
- ✓ Users should stake at least 100 BUSD for each time airdrop request
 - For example, for the first airdrop user should have at least 100 BUSD in his/her total BUSD staked, for the second airdrop 200 BUSD etc.

- ✓ Users can claim airdrop each 7 days
- ✓ Users should have 5 new direct referrals for each airdrop

Referral System:

The contract pays a 4% referral commission over 3 levels only on staking of BUSD

- ✓ Level 1: 2%
- ✓ Level 2: 1%
- ✓ Level 3: 1%

Notes:

- ✓ Referral should be an active users; it means the referral address has least one deposit
- ✓ The referral is specified once at the time of the first deposit and is assigned to the user without the possibility of changing. From each subsequent deposit, the referrer will get his percentage.
- ✓ If a user has not had a valid up line, a total referral commission will be sent to the owner.

Disclaimer:

This audit is only to the smart contract code at the specified address.

Secure Eye is third party auditing company who works on audits based on client requests and as a professional auditing firm, we check on the contract for any vulnerabilities, backdoors, and scam scripts.

Therefore:

We are not financial advisors nor do we partner with the contract creators. Operations and website administration is fully on the client's side. We do not have influence over client operations which can lead to website changes, withdrawal function closes etc. One always has the option to do this through the contract.

Any concerns about the project themselves need to be raised directly to the project owners and not through Security Eye.

We are not responsible for your funds or guarantee you profits, we highly recommend that investors do their own research and gain crypto experience before investing.

If you are interested in developing/audit of smart contracts, please contact us
